9) How many times have you been asked "What do you want to be when you grow up?" Some of you have an answer; you know what it is you want to become. Most of you probably have some ideas, but you are still in the= process of discovery. American author Pearl Buck has these words for you:

The secret of joy in work is contained in one word __ excellence. To know how to do something well is to enjoy it.

Noticing what you do well in life is important. It can help you uncover and develop your special talents. Today, ask yourself this: What do I do best? How can I develop my talent more fully. Remember, success in life isn't necessarily measured in dollars, but in the satisfaction and joy we experience from a job well done.

Today will be a great day if you choose to make it one!! Have a great day cubs!!!
