9) Who do you think of as a truly great human being? Would it be Gandhi? Or the Pope or the Governor? These individuals have achieved greatness in a very public way, but consider this: There are individuals in your life, who may never be famous, but are truly great human beings.

Former American baseball player Buck Rodgers knew something about greatness. He writes:

There are countless ways of attaining greatness, but any road to reaching one's maximum potential must be built on a bedrock of respect for the individual, a commitment to excellence, and a rejection of mediocrity.

We all have greatness within us __ something great and wonderful we can contribute to the world. Today, ask yourself what your greatest quality is and then think about ways you can share that with others.

Today will be a great day if you choose to make it one!! Have a great day cubs!!!
